

THE PATROL RIFLE INTEGRATED MAG POUCH™ NEW for 2009!

THIS SPACE SAVING RIFLE MAGAZINE POUCH IS AN ESSENTIAL PIECE OF GEAR FOR THE 21ST CENTURY PATROL OFFICER.

IN CONFRONTING VIOLENT CRIMINALS OR TERRORISTS, YOUR PATROL OFFICERS WILL BE FIRST TO THE FIGHT.

Officers do not go on patrol carrying only one pistol magazine, so why send them on patrol without at least one extra rifle magazine?

SPECS:

The **PATROL RIFLE INTEGRATED MAGAZINE POUCH** is made of durable polymer materials that are operational under extreme environmental conditions and made to last.

- 4.25" tall, 3.375" wide, and 1" thick.
- Weighs 4.5 oz

FEATURES:

- Fits virtually all 2.25" wide x .25" thick gun belts.
- Accepts AR Platform 20 or 30 round 5.56mm / .223 caliber magazines.
- Open top design provides quick access to rifle magazine.
- Adjustable spring loaded hard rubber strips on each side of the pouch retain the magazine in the pouch even if inverted.
 - The user sets the tension to their desire.
- Includes drain hole & set screw to further secure attached accessories & to set the exact height on the retainer clip.
- Can be worn on the gun belt **VERTICALLY** or **HORIZONTALLY**.
- Attached accessories can be worn on the Integrated magazine pouch **VERTICALLY** or **HORIZONTALLY**.
- Conforms to virtually any uniformity requirements as your issued accessory is attached to the front of the integrated magazine pouch.

Accepts P-Mag's & MagPul's

PATENT PENDING

Slide accessory pouch onto the retaining clip, insert retaining pin and nut. Put on gun belt.

BENEFITS:

- Reduces malfunctions that weapon mounted pouches & cinches can cause.
- Creates an ammo management point by using the same muscle memory that is used to reload the pistol.
- Increases training proficiency.
- Functions as a true force multiplier for agencies that mandate its use by the entire patrol force regardless of if specific officers carry patrol rifles or not.
- **AMMO ON DEMAND WHEN YOU OR YOUR OFFICERS NEED IT MOST!!!**

In saving space on the gun belt, the Integrated Mag Pouch pushes whatever it is attached to away from the belt line 1". This initially may cause concern that it sticks out too far and is likely to get caught consistently on common objects. However, once the Integrated Mag Pouch is used, you will quickly see that concern is negligible and realize the profound benefit of having an extra rifle magazine on your gun belt during training and most importantly while working the streets of the community you protect. **REMEMBER - YOUR RIFLE IS WORTHLESS WITHOUT AMMUNITION!!!**
